

ARMOUR PROTECTION FOAM

RE-CYCLED

WATERPROOF

Armour Protection Foam is a lightweight and versatile solution designed to safeguard finished surfaces during construction and renovation projects. It provides reliable cushioning and protection, keeping projects on schedule and reducing costly repairs.

- Foam product that is lightweight, flexible, and easy to cut
- Impact-resistant buffer layer that works well under more durable protection solutions
- Simple to install and highly cost effective for short-term or low-traffic projects
- Commonly used to protect countertops, cabinets, millwork, and more from minor construction damage like scuffs, scratches, or dust in low-traffic or short-term projects
