DEFEND AGAINST DAMAGE.

ARMOUR STAIR TREAD PROTECTOR

RE-CYCLED | WATERPROOF | RE-USABLE | SLIP RESISTANT | CUSTOM BRAND IT

The Armour Stair Tread Protector is a heavy-duty solution designed to safeguard stairs during construction and renovation projects, offering durable coverage, anti-slip safety, and reliable protection for high-traffic areas.

- Made from 3mm thick high-density fluted plastic with a pre-formed 4in lip on either side and grip tape on each tread
- Covers and protects stair nosing and risers while providing anti-slip traction for safety
- Pre-folded design accommodates various tread depths; lightweight, waterproof, and easy to cut for smaller stairs
- Provides heavy-duty impact resistance and lays flat every time for efficient installation
- Commonly used to protect all types of stairs on construction projects from major construction damage like high impacts in high-traffic areas or long-term projects

ITEM CODE	SIZE	WEIGHT	PACKAGED
ASTP	10in X 36in X 3in	0.8lb	20 / pack 500 / skid

ARMOUR STAIR TREAD PROTECTOR

Physical Properties	Details
Product Material	Polypropylene (PP) Fluted
Product Color	Black
Logo Color	White
Packaging Size	10 pieces per pack
HS Code	3921.19.00.90
Notes / Comments	Grip Tape 25 X 914mm / 1 X 36 in Nosing Lip 76mm / 3in Stair Tread Depth 254mm / 10in

Specification Properties	Metric	Standard/Imperial
Operating Temperature Range	-20 40˚C ±10%	-4 104˚F ±10%
Product Thickness	3 mm	118 mil
TOTAL Product Thickness	3 mm	118 mil
Product Width	330 mm	13 in
Product Height/Length	915 mm	36 in
Product Weight/Density	1000 g/sm	0.2 lbs/ft
TOTAL Product Weight/Density	1000 g/sm	0.2 lbs/ft
Crush Test Rating	1020 Kgf/sm	209 lbs/ft
